

Desert Eagles Model Airplane Flying Club
Meeting Minutes 04/07/2007 @ 7:30 PM
Location: Aeromark

- ! Walter Grasmick, Steve Henderson, Elliot Sussman and Russ Crawford were the board members present. Don Brooks could not attend. Eleven other members attended the meeting.
- ! Walter opened the Club meeting and passed around pictures of the results of a midair collision. Bliss Wheeler described the event. The Stick looked like kindling but the Cap seemed repairable.
- ! The County Road & Bridge Manager (Kevin Eckersell) has given approval for the installation of a gate on the entry road and will have marker stake placed at the south boundary line.
- ! Brent Belnap has the old combination lock from the north gate. We need to keep the north field gate closed because the County has liability concerns. We do have permission to put a lock on the north gate entering the gravel pit area.
- ! Brent Belnap will draw up a sketch of the pit area sprinkler system. Brent will try to pull the abandoned 2-inch pipe (with help) on Friday, 4/13.
- ! Field cleanup day is changed to Saturday, 4/28/07.
- ! Steve Henderson gave the treasurers report. There is \$2057 in the treasury, there are 26 paid up members and a CD worth \$2100.
- ! The next board meeting needs to address fertilizing, weed killing and the field mowing contract.
- ! Brent Belnap showed a tool for measuring wing incidence, about \$19. Also showed a miter saw for cutting balsa.
- ! Jim Haldy showed us some planes built from sheet foam: a P51. A biplane, and a monoplane. He described the construction and how to install flying wires using sprecra fish line.

Submitted by the secretary, Russ Crawford
