

## DEMAFC Meeting 12/1/08 Notes

- 07:37PM Meeting Started
- Walt went over notes from last board meeting.
- Elliot starts discussion on raising dues to 60\$
  - Jim begins discussion of why dues should not be raised. We need to effect the economy of scale.
  - Brent says we should buy barrels to store gas for next summer so that we can save money on fuel next summer. Art interjects that if we should spill some of that gas at the field we would be in trouble.
  - Jim suggests we set up a club dues structure that rewards those who work and taxes those who don't.
  - Brent says we should act like a poor club not a rich club.
  - The use of Randy Dyes mower is being discussed.
  - Elliot suggests that we put it to a vote.
  - Jim places a motion to delay the vote until more information can be gathered. Brett seconds. All in favor of delay (4), all in favor of no delay (5).
  - Elliot pushes forward to a vote. Vote (7) for increase and 2 against. Vote passes.
- Brent suggests not enough interest in float fly to do it.
- Has Mr. Hoff have been given a Christmas Gift Certificate?
- January 1st fun fly was decided to be at Community Park again. 11:00AM
- A discussion begins on the proposed flight pattern at the field. Some suggestions proposed. No specific decision made.
- The sagging gate saga raises its not so pretty head. Elliot elegantly makes his point. It's proposed that there is at least 17 different ways to fix it. Walt says he will fix it Thursday!
- The hole in the fence going to the gravel pit needs to be fixed. No volunteers.
- Meeting ended
