

Desert Eagles Model Airplane Flying Club

Meeting Minutes 7/02/2007 @ 7:30 PM

Location: Flying Field

- ! Walter Grasmick, Elliot Sussman, Don Brooks and Russ Crawford were the board members present. Steve Henderson had company so could not be present. Fifteen other members attended the meeting.
- ! Introduced new members Art Rood and Terry Thornock to the group.
- ! Steve Henderson informed Walter that someone had thrown the two fire extinguishers into the outhouse pit after discharging them in the shed. No sign of powder was found in the shed so we really don't know what happened. Be observant I guess. We will need to buy some new units or get them refilled.
- ! Instructions for starting the irrigation pump were passed out to interested parties.
- ! Jim David had a call from the Red Cross about their need for blood donors. There will be special donation time on 7/5/07 at there office on 17th Street near the Sherwin-Williams paint store.
- ! .Brent Belnap had his first meeting with the people helping run the Tri-Club meet. A summary of assignments is attached at end of these minutes.
- ! Overheating of the irrigation pump is still occurring and the generator is still not charging the battery.
- ! Walter talked about buying a commercial-type mower which is being considered. We presently spend \$1000 per year for mowing the field. We would like a mower similar to the one used by the mowing contractor, which does the job in about 20 minutes. A Super-K costs about \$10,000, but perhaps a good used unit can be found for less money. Creative financing would be needed.
- ! It was suggested that perhaps a \$20 assessment be made on all members which would be returned if the member would water the field and mow the field once each.
- ! Pilot fees for the Tri-Club meet are suggested to be \$10.

Submitted by the secretary, Russ Crawford

Tri-Club Responsibility List

Chairman	Brent	Oversight, 3-club coordination
Field appearance	Elliot	Shelter, seating, lawn, windsock, plane pit, lawn area, tables
