

Desert Eagles Model Airplane Flying Club
Executive Board Meeting Minutes
05/21/2008 Library at 6:30 PM

- ! Walter Grasmick, Steve Henderson, Elliot Sussman and Russ Crawford were present.
- ! Steve gave the financial report. We have about \$2005 in our account and about 39 members. There are still a few members not signed up.
- ! The irrigation pump is at the field but not placed or hooked up. The small pump is not installed as yet.
- ! Lee Powell has volunteered to service the pump—change oil, filter, etc.
- ! Reviewed the items needed for the open house to make sure that everything is covered.
- ! Barry Cazier is going to donate another airplane to the club that we will be able to raffle off.
- ! Walter is going to talk to the hobby shops to see if they would like to setup a table or such.
- ! The road is muddy and we really don't have a solution. The water is apparently coming from our neighbors when they flood irrigate their fields.
- ! Walter will find out from the County if we can use some of their gravel on the road which is a County easement. The farmer to our south has a dump truck which might be available.
- ! The south fence is completed – thanks to the Eagle Scouts! We still need to close the hole in the north fence where the gate was removed. Apparently there is enough material left over for that work.
