

**Desert Eagles Model Airplane Flying Club**  
**Executive Board Meeting Minutes**  
**06/16/2008 Flying Field At 6:30 PM**

- ! Walter Grasmick, Steve Henderson, Art Rood, Elliot Sussman and Russ Crawford were present.
  
- ! Dave Bennion was not present to explain the car club proposal and how they function. The gist of the matter is that they would be associate members of the Desert Eagles. A possible proposal is that this would result in \$30 yearly dues and no vote on our club business. There was an extensive discussion of the matter. Summary: The cars are **not** noisy. Their area would be fenced and have its own gate with their lock. They would probably have to build their own out-house and pay the \$250 permit fee (or whatever it is today). Apparently there is a sign up list for interested parties at Hobbytown authored by Dave and Chris. We really need Dave to make a formal presentation to the board because of our lack of familiarity with RC cars and their operation. How will this situation really work and what are the potential problems?
  
- ! Steve Henderson discussed the irrigation pump. A new battery has been purchased and installed. The voltage regulator was shot and is replaced. The generator armature needs to be turned to clean up a burned bar and will be done tomorrow. A thermostat is needed. The cleaned and repaired radiator needs to be tested.
  
- ! Walter Grasmick said that the Open House was a success. The weather was “Horrible” but there were lots of people there.
  
- ! The Rexburg Air Show was also a resounding success. Lots of people dropped by the Desert Eagles display (about 30 RC airplanes) and the members running the display mostly talked themselves hoarse about our club and hobby.
  
- ! It’s a low priority but we need to close the field fence at the northwest corner. Elliot will do?
  
- ! The club fun-fly is in July.
