

Desert Eagles Model Airplane Flying Club
Executive Board Meeting Minutes
07/29/2008 Flying Field At 6:30 PM

Walter Grasmick, Steve Henderson, Art Rood, Elliot Sussman and Russ Crawford were present.

Walter talked to Dave Bennion about the car people. They feel that we are no longer interested in allowing them to set up a "car park" at the field. That is not the case. They were supposed to get some key players to a board meeting so that we could exchange information. They should write up there ideas and present them to the board. The board will represent the club until such time that we have a good picture of what should happen and then present this to the membership. Walter will pass this on to Dave Bennion.

The next board meeting will be August 26th.

Elliot talked about the float fly at Rainbow Lake put on by the Red Barons. Half the airplanes were Slow Sticks with blue foam floats. Landings were very tricky because the wind was across the lake and the lake is rather narrow. The event took place on Friday and Saturday, A boat with an electric trolling motor was used to retrieve the planes. The electronic equipment needs to be wrapped in plastic wrap for water protection.

The club meeting is next Monday.

A date for the Tri-Club meet is not firm to the best of our knowledge.

We need to send out our event schedule out on January 1st and add this to our board schedule. That action should give us first dibs on dates.

Steve presented our financial status. As of 7/14, our balance was \$2168 and we owe \$196 for the June field mowing. We still need about \$900 for the remaining mowing and watering this year.
